

GOLF CROQUET– When you join a Croquet Club you are most likely to be introduced firstly to what is termed Golf Croquet. This is a simpler version of Croquet which does not include the croquet stroke (shown overleaf). Many players find this game sufficient for their interest. In contrast to the other form of croquet known as Association Croquet, this is a fast moving game. Each player has only one stroke in each turn and the aim is to take one's ball through as many hoops as possible. Each hoop scored, counts one point. The usual 13 point game is played in which the first player to score 7 hoops is the winner . It can be played as either a doubles game or as a singles game. The balls usually used are coloured Red, Yellow, Blue and Black and a toss of a coin determines who will play the R&Y and who will play B&B.

Bellingen High School students being introduced to croquet as a School sport by members of the Urunga Croquet Club. Teachers are also taking an interest in this sport

Visitors to Port Hacking Club are shown receiving a demonstration of Golf Croquet and Association Croquet. They then had a "hands on" experience of holding a mallet and striking balls. Croquet is a sport which can be enjoyed by all ages.

ARE SOME OF
THE STROKES
WHICH ARE
EMPLOYED IN A
GAME OF
ASSOCIATION
CROQUET.**

The Drive Mallet vertical.
and the stroke is played with full follow
through of the mallet.
Striker's ball goes about 1/3 of distance
traveled by the croqueted ball

The Stop Shot Mallet tilted back-
wards. Striker's ball travels only a short
distance and the croqueted ball goes a long
way. Mallet does not follow through.

This croquet stroke is used to position the
striker's ball (B) in front of his hoop, and at
the same time to send the croqueted ball
(A) to the other side of the hoop, so that
when the hoop is run in the continuation
stroke, there will be a ball ready to roquet.
The mallet is aimed along the line shown
by X to achieve this "split".
